2. CONSTITUTION OF THE EUROPEAN FEDERATION OF RADIO OPERATED MODEL AUTOMOBILES EFRA

1. Name and scope

The name of the Federation is the European Federation of Radio Operated Model Automobiles (hereinafter referred to by the acronym EFRA). EFRA was established in 1973 and has since then been recognised as the first and sole continental authority to regulate and run European Championships for Radio Controlled car racing. EFRA's aim is to create rules to enable fair competition at RC car racing events across Europe at European Championship events, and these procedures may also be adopted by its members.

2. Objectives

The objectives of the Federation are:

- a) The promotion of international Friendship and Co-operation, particularly (but not exclusively) on the continent of Europe, through and for the construction, competition and sport of radio-operated model automobiles.
- b) The establishment of uniform International rules and regulations for such construction and operation.
- c) The co-ordination of races and competitions, national and international and the keeping of records thereof and the distribution of information relating thereto.
- d) The representation of its member countries in the world federation IFMAR (International Federation of Model Auto Racing) which coordinates model car racing in the world and organises World Championship races. EFRA is recognised by IFMAR as its representative for Europe and its affiliate members. EFRA in turn recognises and supports the authority of IFMAR in all matters relating to the worldwide organisation of model car racing.

3. Membership

3.1 Country Federation Membership.

Membership of EFRA shall be open to the National governing body of Radio Controlled Car Racing in each country in Europe and those countries considered by the Executive Board to be acceptable in terms of proximity to Europe. Any application for membership must contain such information as the Executive Board of EFRA may from time to time require and must be accompanied by the then current annual membership fee. All membership applications shall be submitted for acceptance before the next General Meeting of EFRA. All membership applications shall be deemed as provisional until formally accepted by the General Meeting.

Such acceptance shall require a simple majority of votes.

Pending such acceptance however a provisional member shall be entitled to be represented at all EFRA sponsored events.

Any question that may arise regarding if the Applicant is in fact the governing body of the country it wishes to represent, or whether such country is in fact a country for the purpose of these rules, (as distinct from a province, country etc.) shall be decided at the General Meeting of EFRA by a simple majority. A General Meeting may, by a two thirds majority of the membership, cancel the membership of any member.

At least one month notice of any proposal to review a membership shall be given to all members and the executive shall, if so requested, transmit to all

members any defence or explanation which the member in question wishes to put forward.

3.2 **Manufacturer Associate Membership.**

- a) Associated Membership to EFRA is available to bona fide manufacturers of RC model goods against an annual Associated Membership fee as decided by the EFRA AGM and published on the EFRA website.
Associated membership is valid from January 1st. for the calendar year. An Associated Membership carries no voting rights at:- AGM, General Meeting, Section Conferences or any Team Managers or International Jury meetings.
- b) Benefits and rights of Associated Members:

Associated Members have specific advertising rights as detailed in [c & d] below.
- c) Use of EFRA Logo's by Associated Members:-
Associated Members of EFRA are allowed to state that they are an Associated Member of EFRA in any company advertising or on any products. EFRA will supply a specific logo (EFRA Associated Member) to be used for this purpose when a company becomes an Associated Member. Other wording such as: "EFRA Approved Manufacturer" etc. is specifically not allowed. The use of this logo does not constitute that any product is homologated/approved by EFRA. In the event of a company ceasing or resigning from being an Associated Member, then all references to EFRA and the use of any EFRA logo in advertising or on products must also cease.
- d) Additionally; if EFRA has an homologation/approval process for any specific products, then an Associated Member is allowed to state that a specific product is approved by EFRA. This only applies to products that have been officially approved by EFRA and are included on an EFRA homologation or approved list. EFRA will supply a specific logo (EFRA Approved Product) for this purpose. Other wording such as:- "EFRA Legal, accepted, preferred, recommended" etc. is specifically NOT allowed. Any product not included on an official EFRA approved list must not bear any wording relating to EFRA

approval, although it can portray that the manufacturer is an Associated Member of EFRA. Associated Members that contravene this ruling can be banned for up to two (2) years from holding EFRA Associated Membership, or applying to obtain approval of any further products. It is also possible that any existing approved products could be removed from any approved lists. No refund or indemnities whatsoever will be granted. If any existing EFRA approved product is altered in any way resulting that the product no longer complies with EFRA rules, then the same penalties apply. AM's should gain permission from EFRA before using "EFRA Approved Product" on any item.

3.3 **Use of Logo's by Manufacturers not having Associate Membership.**

- a) Manufacturers or Companies that are not Associated Members of EFRA are specifically NOT allowed to include any unauthorised EFRA logo, trademarks or wording in any advertising or on any products, that could be construed to depict any membership recognition by EFRA. This does not preclude any non- Associate Member from having products approved by EFRA and included on the relevant homologation/approved lists.
- b) Manufacturers or Companies that are not EFRA Associated Members, but have specific products approved by EFRA, are allowed to portray in advertising or on the specific product that the product has been approved by EFRA. This only applies to products that have been officially approved by EFRA and are included on an EFRA homologation/approved list. EFRA will supply a specific logo (EFRA Approved Product) for this purpose and this is the only reference to EFRA that can be used. Any product not included on an official EFRA approved list must not bear any wording relating to EFRA approval, either in general advertising or on the product. Other wording such as: "EFRA Legal, accepted, preferred, recommended" etc. is specifically NOT allowed.
- c) Any unauthorised reference to EFRA by non-Associate Members is subject to a ban from any approvals or becoming an Associated Member for up to three (3) years. No claims whatsoever can be made against EFRA in such cases and EFRA retains sole rights to accept or refuse applications for membership or approval of products at any time. If any existing EFRA approved product is altered in any way resulting that the product no longer complies with EFRA rules, then the same penalties apply. Manufacturers/companies that are not Associated Members of EFRA should gain permission from EFRA before using "EFRA Approved Product" on any item.

3.4 Where EFRA has a homologation/approval process for any specific products, then an Associated Member is allowed to state that a specific product is approved by EFRA, using the wording: "EFRA Approved". EFRA will supply a specific logo for this purpose. Other wording such as: "EFRA Legal, accepted, preferred, recommended, etc." is specifically NOT allowed. This only applies to products that have been officially approved by EFRA and are included on an EFRA homologation/approved list. Any product not included on an official EFRA approved list must not bear any wording relating to EFRA approval, although it can portray that the manufacturer is an Associated Member of EFRA.

Associated Members that contravene this ruling can be banned for up to two (2) years from holding EFRA Associated Membership, or applying to obtain approval of any further products. It is also possible that any existing approved products could be removed from any approved lists. No refund or indemnities whatsoever will be granted.

If any existing EFRA approved product is altered in any way resulting that the

product no longer complies with EFRA rules, then the same penalties apply. AM's should gain permission from EFRA before using "EFRA Approved" on any product.

3.5 Manufacturers not having Associate Membership.

a) Manufacturers or Companies that are not Associated Members of EFRA are specifically NOT allowed to include any EFRA logo/trademarks in any advertising or on any products. This includes the use of any EFRA Logo or any wording that could be construed to relate to any membership recognition by EFRA. This does not preclude any non- Associate Member from having products approved by EFRA and included on the relevant homologation/approved list.

b) Manufacturers or Companies that are not EFRA members, but have specific products approved by EFRA, are allowed to portray in advertising or on the specific product, the wording "EFRA Approved" for that specific product. This only applies to products that have been officially approved by EFRA and are included on an EFRA homologation/approved list. Any product not included on an official EFRA approved list must not bear any wording relating to EFRA approval, either in general advertising or on the product. Wording such as: "EFRA legal, preferred, recommended" etc., is specifically not allowed.

c) Any unauthorised reference to EFRA by non-Associate Members is subject to a ban from any approvals or becoming an Associated Member for up to three (3) years. No claims what so ever can be made against EFRA in such case and EFRA retains sole rights to accept or refuse applications for membership or approval of products at any time. If any existing EFRA approved product is altered in any way resulting that the product no longer complies with EFRA rules, then the same penalties apply.

Manufacturers/companies that are not Associated Members of EFRA should gain permission from EFRA before using "EFRA Approved" on any product.

3.6. ALLOCATION PROCEDURE FOR EUROPEAN AND WORLD CHAMPIONSHIPS

- 3.6.1. For European and World Championships, member countries can apply for allocated places in the Sections for which they have registered and paid. A member country that is 'new' to any Section for the following year can apply for allocated places, providing they have officially informed the EFRA General Secretary they will be registering for the particular Section prior to the AGM. Within each Section (or Class), each member country to be registered for the Section is entitled to have at least one (1) place allocated at the AGM which must be confirmed by 21st January. Application for places to be submitted to the Section Chairman before or at the AGM.
The first twenty (20) direct nominated allocations from the Section ranking lists existing in Large Scale are subject to the approval of their National Federation for these drivers.
- 3.6.2. At the Annual Conference, each Section establishes the allocations for the next years Championships (additional to the entitled one (1) place), from the official applications of the registered member countries submitted to the Section Chairman.
Final Numbers MUST be confirmed to the relevant Section Chairman by 21st Jan. latest, following the conference. Any places not confirmed by this date can be reallocated to member countries that have places on the reallocation list.
- 3.6.3. When determining the allocations for each country; host country places and defending Champion places (3.6.6 & 3.6.7), together with any Section rules relating to current World Champions should be established first. Then the following points should be considered, in order of priority:-
- a. total number of drivers;
 - b. international results at E.C./ W.C./ Grand Prix;
 - c. places taken up at the last E.C.;
 - d. participation in international racing;
 - e. length of membership of EFRA.
- Separate procedure exists for Electric Sections (see Appendix 3, 7.2.5.)
- 3.6.4. At the Annual Conference, the Chairman will propose the allocations-list to the Meeting. The Meeting may, within reason, discuss the proposed list and may ask for changes. In case of disputes, the Meeting can decide the dispute on a simple majority vote.
- 3.6.5. The procedure for allocating entries is also used for re-allocation unless otherwise stated so. 40 days before the EC and 60 days before a WC the places not taken up by the Countries will be reallocated by the Section Chairman. The registration must be done at the EFRA web site 40 days before the EC. Failing to register this data in time may lead to re-allocation of the corresponding places. The Meeting may recommend preferential re-allocation of places to countries with small initial allocations. Preferential re-allocation places must be specified in the allocations list.
- 3.6.6. For a European Championship the host country is allowed 2 extra places in addition to their original allocation.
- 3.6.7. The defending section/class Champion is allocated 1 place with the sole exception of the B class Champion who is allocated 1 place at the immediate next year European Championship A.
- 3.6.8. For each European Championship, places will be allocated at the AGM. Federations MUST then confirm their Final Numbers for each event to the relevant Section Chairman no later than 21st January following the AGM. NOTE: ALL EFRA; invoices, payments or deductions will be based on the Confirmed

Final Numbers submitted by 21st Jan. for each event. A 'change of mind' to these Confirmed Final Allocation Numbers, for whatever circumstances, DOES NOT CONSTITUTE A REFUND.

EFRA will invoice the Federations according to the Confirmed Final Numbers (21st Jan.) with the amount being as detailed in GR 3.5.7 for the current year. Invoices will be sent to the Federations by the end of February and must be paid to the EFRA Treasurer no later than end of March. EFRA will receive 20 euro from each entry fee, based on the total of Confirmed Final Numbers (21st Jan). EFRA will pay the organising Federation 75/80% of the remaining entry fee (after the 20 euro deduction), based on the Confirmed Final Numbers. This amount (75/80%) will be paid to the Organising Federation at least one month before the event, unless a written agreement has been received by the Treasurer to effect payment in a different manner. The remaining 20/25% of the entry fees (after the 20 euro deduction) will be retained by EFRA as a 'performance bond' to cover any expenses for : Referee, Time-Keeper, Race Director or any other key positions if EFRA deem it is necessary to appoint such positions. Any balance from the 'performance bond' will be paid to the Organising Federation after the correct completion of the event.

EFRA will inform the Organising Federation the Confirmed Final Numbers that will be paid by 1st. Feb.

The Section Chairman is responsible for controlling all event allocations and must inform the EFRA Treasurer the Confirmed Final Numbers for EFRA to: invoice Federations and pay the correct number of allocations to the Organising Federation.

NOTE: The above 'performance bond' can be varied at 20-25% at the discretion of the Section Chairman.

3.6.9 European Championship places that are allocated at the AGM and confirmed as Final Numbers (by 21st. Jan.) that are not paid by end of February may be reallocated to other countries by the Section Chairman. Real located entry fees will be paid to and retained by EFRA. EFRA will invoice each reallocated entry to the member countries without specifying the drivers name etc. No money can be paid at the event. Reallocation entry fees will be 150% the specified entry fee (GR 3.5.7), unless:

- a) The final number of places allocated to the country concerned is still less than, or the same as, the Final Number agreed (submitted by 21st Jan.).
- b) The country concerned has places on an official Reserve List due to the event being oversubscribed and such places were requested at the time when the Final Numbers were confirmed (21st. Jan.). If additional reallocated places are awarded that increases the total number of entries at the event to more than the Confirmed Final Numbers (submitted by 21st. Jan.), EFRA will pay the organising country the additional numbers.

The Section Chairman is responsible for controlling all event allocations/ reallocations and must inform the EFRA treasurer the Confirmed Final Numbers including any reallocated places for each Federation, for EFRA to invoice the Federations concerned and to pay the correct number of allocations to the organiser. At EC events where places are allocated/reallocated, any places not filled by the stated deadline dates (due to cancelations or reduced entry numbers) can be allocated to late entries subject to the agreement of the Section Chairman. Such places must be requested by a member Federation and will be charged at the 150% rate. Late entry requests may be declined if all entry details have been 'frozen' and submitted to the organiser.

3.6.10 For an IFMAR World Championship or IFMAR sanctioned event, places will

be allocated at the AGM. Federations MUST then confirm their Final Number 'required' for each event to the relevant Section Chairman no later than 21st Jan. following the AGM. (It should be noted that numbers "required" by Federations may not be possible to award, based on the number of allocations granted to EFRA). When the Final Confirmed Allocation Numbers have been agreed; then a 'change of mind', for whatever circumstances, DOES NOT CONSTITUTE A REFUND.

The entry fees are payable in € at the actual exchange rate. in advance to the EFRA Treasurer. The entry fee is established by IFMAR and is subject to a 10% EFRA surcharge. The EFRA Treasurer will invoice member Federations separately for all WC allocations by the end of March and these must be paid by the end of April, or within one month of invoice in the case of re-allocations. Re-allocations will be charged at the normal entry fee rate. Once requested by a member country, no WC allocations can be cancelled or fees repaid.

- 3.6.11 All contractual correspondence between EFRA, Organiser and Federation Rep related to EC's and WC's must be sent by email and receipt must be confirmed or by a means which has traceability.

3.7. LEGAL LIABILITY

- 3.7.1. EFRA is unable to, and will not, accept any legal liability for any event for which it has granted an EFRA Sanction and accepted a sanction fee.

- 3.7.2. The organisation of EFRA is responsible for maintaining Rules and Procedures as agreed by the EFRA member countries, for which all EFRA sanctioned events must comply with. EFRA Officials cannot and will not accept any legal liability resulting from any situation that may take place at an EFRA Sanctioned event at which they are acting in an advisory or supporting role. EFRA or their officials are not responsible for any claims relating to; injury, damage or loss of equipment or any other financial loss resulting from any procedures or equipment used by the organiser at any EFRA sanctioned event. EFRA is not responsible for any claims for any financial loss as a result of an EFRA sanctioned event having to be cancelled or curtailed. 8. GENERAL RACE PROCEDURE

8.1. PRACTICE AT EUROPEAN CHAMPIONSHIPS

- 8.1.1. At European Championships, at least 1 series of organised practice in heats per class is compulsory. It is compulsory to run at least the last round of the organised practice with official starting, official time keeping with the results published, as in official racing.
- 8.1.2. Results scored during organised practice could determine the start order (when using delayed start) in Round 1 of the qualifying heats.
- 8.1.3. Organised practice must be seen as a last rehearsal and test for both the organisers and the drivers and therefore all EFRA rules have to be followed seriously.
- 8.1.4. Free practice for all drivers CAN be allowed prior to the organised practice. In order to give every driver the same free practice and organised practice time a ticket system may be used under the control of the Race Director. Whether it is free, organised or timed practice, the identity of each driver must be carefully checked upon arrival on the rostrum.
- 8.1.5. Free practice on the day of racing may be allowed by the organisers till 30 minutes before the start of the first heat. This is not compulsory.
- 8.1.6. Free practice may only be allowed between the start of the first heat and the finish of the main final at the discretion of the organiser. Free practice is not mandatory. If free practice is planned it must be well known to everybody fairly in time.
- 8.1.7. A driver, not taking part in the organised practice, may not complain later to the organiser in case of radio-interference etc.
- 8.1.8. During Free and Control Practice driver's must follow Race Control instructions -

may be given in a written paper prior to the event start -, specially all instructions related to marshalling and technical inspection - e.g. go to his marshalling position after a practice, or mark chassis prior to the start of the qualifying. If a driver does not follow those instructions he will lose his best qualifying result

8.2. PRACTICE AT OTHER EFRA SANCTIONED RACES

- 8.2.1. At least one day of practice in heat format for all drivers who wish to take part is recommended; normally Friday.
- 8.2.2. During the free practice the frequency board must be in use.
- 8.2.3. An organised practice of only one series of only one class is optional. This organised practice should be used as a last rehearsal and test and must include official time-keeping (see 8.1.1.).
- 8.2.4. Practice on the race-days may be allowed till 30 minutes before the start of the first heat and after the prize-ceremony, but is not compulsory.
- 8.2.5. When the organizer has started organized practice, all drivers must respect the time schedule and the heats set. If a driver is caught cheating, for instance taking part in two different practice heats the driver will be disqualified from the race.

8.3. ARRANGEMENT OF THE HEATS

- 8.3.1. For arranging the heats the organiser must consider the skill of each driver. If the section has a grading system for registration, only drivers with the same grading may compete in the same heats.
- 8.3.2. One arrangement of heats may be used for one class only and must be different for following classes, with the purpose of finding different opponents.
- 8.3.3. Organisers may only change the composition of a heat when there is a serious and obvious problem that cannot be solved otherwise.
- 8.3.4. Prior to commencement of Qualifying Rounds, drivers should be re-grouped for qualifying heats taking into account the results from final rounds of Free Practice or from Controlled Practice and/or upon the Race Officials observations. For EFRA GPs, the reseeded has to be based on controlled practices from Friday and Saturday.

8.4. REGISTRATION

- 8.4.1. At European Championships drivers registration must take place on the day prior to the race. Registration will be done by the National Team Manager. During registration the drivers EFRA Registration is checked. The registration numbers will be registered by the race organiser.
- 8.4.2. At EFRA Grand Prix and other EFRA sanctioned races, drivers registration may take place up till 30 minutes before the start of the first heat.
- 8.4.3. Driver's registration must involve:
 - paying the entry fee (G.P.'s only, if not previously collected in advance);
 - checking the required drivers license;
 - receiving a list with the heat arrangement/timetable, including the frequencies used;
 - receiving other necessary information
- 8.4.4. At every EFRA event, pre-registration may be requested by the organizers. Limit date for pre-registration must be 72 hours before the official limit time for registration. Pre-registration must involve:
 - Name of driver
 - Country
 - The required drivers license
 - EFRA Registration number
 - Transponder number

Email Address and agreement of the driver to send results.

And may involve: Payment in advance and/or sending a picture for accreditation.

8.6. TRANSMITTER AND TRANSMITTER IMPOUND

There can be 2 different kinds of transmitter:

- a) Transmitters with a crystal that can be changed. See rules 8.6.1 / 8.6.3 / 8.6.6
- b) Transmitters using a software decoding system that seeks for a free channel. Anybody using these kind of transmitters cannot ask for a delay for radio interference.

8.6.1. Transmitters (as in 8.6 a) must be constructed in such a manner, that the crystal can be changed and all competitors must have at least one alternative frequency available. Voltage supply to the transmitter must not exceed the manufacturer's type approval or National authority recommendations. Any driver found to be using external or additional battery packs must have proof that it conforms to the radio manufacturer's specifications. No changes or additions are allowed on the antenna unless authorised by the original manufacturer.

8.6.2. Electronic driving aids : Steering and driving/brake can only be operated by direct action of the driver using the Radio. The use of traction control devices, active suspension devices and any steering control aided by gyroscopes or 'G'-force sensors is strictly forbidden. Sensors are only allowed for the purpose of passive data recording and not for adjusting the performance of the car whilst in motion. It is not allowed to use any form of telemetry with active transmission. Clarification: It is not allowed for any wireless signals to be transmitted from the car to an external source during the race that is judged to give the driver a competitive advantage during that particular race! Drivers found using any of the above forbidden items/devices will be subject to disqualification from the event where the items are used and can be banned from all EFRA and IFMAR events for a period of 5 - 10 years.

8.6.2.b) Radio communication is allowed between Driver and Mechanic at certain classes.

Radio Communication Rules:

- a: Only designated public service bands with a maximum power output of 500 mW are allowed.
- b: Radio communication can only be used by the driver their pit crew, only while their driver is on the drivers' rostrum for the duration of the race.
- c: A single ear piece or one sided head set type that is not audible to others and does not reduce the ability to hear the referees' calls must be used.
- d: All equipment must comply with the local & country radio communications rules.
- e: Not allowed, any 2.4 GHz radio equipment.
- f: Radio equipment cannot be used at any other time within or around the complex.
- g: Race management has the right to test, decline or withdraw the use of any and all equipment without question.
- h. The equipment must not be carried whilst marshalling.

Note: Rules, b, c & f, do not apply to race management.

8.6.3. Spare transmitters must have the crystals removed and if possible must be kept out of the pits.

8.6.4. Transmitters may never be taken onto the track during racing.

8.6.5. Transmitters will be under the control of the Race Organisers.

8.6.6. Transmitter impound is not mandatory. It's up to the Race director in accordance

with the EFRA representative to have an impound or not.

- 8.6.7. Should the Race Director and Organiser decide not to have a compulsory Transmitters Impound, then such decision can be changed following a request of at least 3 Team Managers present.

If a Transmitter Impound is not mandatory, then drivers can only switch on the transmitter when on the rostrum, or under supervision at Technical Inspection. In event of drivers marshalling, there must be a place next to the rostrum where they can place their transmitters while acting as marshals.

- 8.6.8. Transmitters are impounded immediately after a request by the Race Director or other Official. When impounded for the first time, transmitters are marked with heat-number or with identification number of the driver and are stored accordingly.
- 8.6.9. The transmitter impound must be close to or if possible on the rostrum. Transmitters must be protected against bad weather and stored in a safe and secure manner to prevent any damage to the transmitter.
- 8.6.10. Transmitters are only released for the next race immediately prior to the race start and must not be removed from the official area's or switched-on until the previous race has been declared finished. Transmitter-impound must take place immediately after the driver has completed his race or has finished driving and is leaving the drivers rostrum.

8.7. TECHNICAL INSPECTION

- 8.7.1. Admission Inspection must always take place in an area protected from intrusion and before the start of the first heat. Cars must be presented for inspection as requested by the Officials any time during the meeting. Random checks on technical specifications can be done during the whole race. During Technical Inspection only the Driver or Mechanic and the Team manager are entitled to be present in addition to Race Officials. Under all circumstances it is the responsibility of the driver that his car is within the EFRA rules during a race meeting. If a car is found illegal during heats, sub-finals or final, the drivers result will be made void and the car has to stay in technical inspection until the result is published and the protest time is over.

- 8.7.2. At European Championships admission inspection must take place before the controlled timed practice.

- 8.7.3. Technical inspection must include a thorough check-out of the car, weight limit, motor, muffler, tank, batteries, tyres, homologation of bodies, spoiler and overall dimensions. At European Championships, also of the transmitter (see 8.6.2.).

Any tank found illegal after a heat or final shall be removed from the car and inspected for a second time after an initial "cool down period" of 15 minutes. This period of 15 minutes is only necessary in case the temperatures are above 20° C. The use of artificial aids to cool the car, tank and/or the fuel in the cool down period is forbidden. Only EFRA approved equipment for measuring are allowed.

- 8.7.4. Only one car per driver per class will be accepted. When transmitters are checked, spare-transmitters may also be presented for inspection.
- 8.7.5. When a car or a transmitter does not comply with the rules, changes may be carried out before presenting it for final admission.
- 8.7.6. Cars which have passed Technical Inspection must be marked with the drivers identification number, consisting the registration Entry number. This number must be applied inside the chassis plate.

- 8.7.7. For each competitor the race has officially started after technical inspection and admission of his car.
- 8.7.9. At European Championships, all cars of finalists go into a “Parc Fermé”, immediately after the finish of the final and are inspected. Cars must remain with the Officials, untouched by drivers or mechanics. Any race distortion must be ignored. Inspection must be at least on:
- engine (motor)
 - tank capacity (batteries)
 - battery-pack and weight
 - chassis (dimensions)
- 8.7.10. Point 8.7.9. may be applied at EFRA Grand Prix or other EFRA sanctioned races, but is not compulsory.
- 8.7.11. The marked part of the car, normally the main chassis, may be changed. This would be subject to any technical criteria detailed within each Section. The original marked part must be left with the organisers until racing has finished
- 8.7.12. If a car is found to exceed the limits of dimensions on checking immediately after a race positive proof of race damage may prevent disqualification. If a car fails to pass the technical inspection, the driver’s result/time is only discarded from that heat. In a final, or sub-final, it will mean last position of that final.
- 8.7.13. The car shall be measured for width, length and height using equipment as detailed in each Sections Technical rules. The equipment should be constructed preferably from metal, or alternatively from high quality board suitably stiffened to prevent distortion.
- The car must freely fit such equipment with any steer able wheels set in the straight ahead position, and comply with any maximum dimensions due to suspension movement that may exist in the Section rules.
- The measurement of the wheelbase may be made by simple measurement of axle centre distances with suspension in any position but Race Directors should be prepared to make more exact checks in cases of doubt or protest. If is suggested that the wheels are removed and the wheel spindles are firmly placed on the blocks whilst accurate measurements are made.
- 8.7.14. The equipment used for technical inspection by the organiser must be made available to competitors at all reasonable times.
- 8.7.15. All lists of approved equipment, (i.e. Bodies, mufflers and batteries) must be available on EFRA’s webpage from the 1st of March every year. This is the finale lists for this year and no changes will be made before the next year. Equipment homologated during the year will not be put on the list until 1st of March next year.
- 8.8. TEAM MANAGER MEETING**
- 8.8.1. A Team Managers Meeting must be held prior to each race and per class. It must be held in English. The Race Director must call the meeting, Team-managers, Referees and other Officials must be present.
- 8.8.2. Team Manager meeting have to be completed at least 1 hour before the start of the first timed practice and the following points must be covered as a pre-race briefing:
- security and safety items;
 - starting procedure, explanation;
 - disciplinary questions;
 - other items concerning the contestants;
 - changes in the organisation or procedures;
 - presentation of the main Officials and Referees.

- details of the penalties that may be awarded and the circumstances that they will be awarded under.
- details of the number of mechanics etc. authorised to enter the pit lane during racing.

Team managers are links to distribute this info to their respective drivers All Team Manager Meetings must have its correspondent "distribution information time" advised to be 20 minutes.

8.9. FLAGS

- 8.9.1. If flags are used then: Starting flag: the national flag of the country where the race is held.
Finish flag: chequered flag.
Black flag: the car in question must immediately stop in the pit to receive instructions
- 8.9.2. The use of the black flag by the Referee (see 7.1.8.-9.):
- drivers who impede the progress of other participants;
 - unsporting behaviour;
 - participants driving in a manner deemed to be dangerous.
- 8.9.3. The use of the black flag by either the Referee or the Race Director (see 7.1.12..13.):
- Vehicles judged to be in an undriveable or dangerous condition; after repairs have been carried out and after the Race Director or the Referee have approved the repair, they may continue their race;
 - Vehicles which lose their bodies or other parts must immediately stop and carry out the necessary repairs after which they may re-start.
- 8.9.4. The black flag is operated by the Flagman (Starter), who receives his instructions to do so from either the Race Director or the Referee. Under no circumstance may he use the black flag on his own authority.
- 8.9.5. No response to the black flag (verbal or physical) within three (3) laps will lead to disqualification of the concerned participant of the whole event.

8.10. PENALTY CAUSES

Time penalties should be awarded as stop and go penalties where possible. The Referee and/or Race Director should inform the driver and the penalty should be announced through the sound system and the driver should bring the car into the pit lane in the immediate next three (3) laps where it will stay the amount of time that the race organiser has decided depending on track layout. The 'stopped' time should be announced at the Team Managers Meeting. It will not be allowed any repair or refueling during the penalty being served.

The Referees may declare during the race, but they are not obliged to, a RACE INCIDENT UNDER INVESTIGATION for possible infringements committed in the last minute or last 2 laps of the concerned race, whatever of the 2 options may be larger in time. Those RACE INCIDENT UNDER INVESTIGATION can be decided by the Referees in the next immediate minutes to the final of the race after checking it. In the case that there is no possibility to call a driver for a stop and go penalty (e.g during the last 2 -3 laps of the actual heat or final), the Referees will announce that an appropriate time penalty will be applied (Large scale: 1 lap). When a time penalty is applied, the Organiser will ensure the following criteria is applied:-

- 1) The competitor receiving the time penalty will have his actual Race Time (time on track) reduced by penalized time.
- 2) Organiser to check results to establish the time of the last lap using the Penalised Race Time.

- 3) The organiser will amend the published time for the penalised driver to show a time of -- “the number of seconds over his Penalised Race Time, added to the normal Designated Race Time for drivers not receiving a penalty”.

Examples:- Designated Race Time is 10 mins. (600 sec.). Driver X receives time penalty of 10 Sec., therefore his Penalised Race Time is 590 sec.

- 1) X crosses the timing loop at 595 sec. at the end of lap 12. His corrected time will be published as 12 laps in 605 sec.
- 2) X crosses the timing loop at 589 sec. on lap 12. He can continue and completes lap 13 at 620, (31 sec lap).

His corrected time will be published as 13 laps in 630 sec.

8.10.A Penalties in time, laps or even disqualification issued by EFRA Referee:

- 8.10.1. Unsporting behaviour (see 7.4.);
- 8.10.2. Deliberate corner-cutting;
- 8.10.3. When a car is re-entering the race other than from the point at which it left the track (not in case the engine has stopped and has to be re-started. Then the car re-enters the race from the pits);
- 8.10.4. When repairs are made to the car other than in the pit area off the track;
- 8.10.5. If the car is pushed over the finish-line (must finish under its own power);
- 8.10.6. Not returning to the pits after finishing a race;
- 8.10.7. Driving in the opposite direction of the race direction at any time.

8.10.B Penalties in time, laps or even disqualification, issued by the Race Director:

- 8.10.8. If orders of Race Officials are not obeyed;
- 8.10.9. If acting contrary to the EFRA Rules;
- 8.10.10. If a driver changes his complete car for whatever the reason;
- 8.10.11. If a driver changes his frequency without permission of the Race Director;
- 8.10.12. If a driver does not return his transmitter to the transmitter impound immediately after the finish of the race;
- 8.10.13. Penalties in time or laps may be issued by the time-keeping Official in the case of early starts (see starting procedures).
- 8.10.14. The bad behaviour and deportment of any competitor or assistant person to a competitor during the whole event, which could injure the image of the sport, may become subject to National or International (EFRA) sanction;
- 8.10.15. All Warnings and penalties must be noted on the result sheet and on the result board for the drivers (preferably in red).

8.10.C Drugs

- 8.10.16. If drugs or alcoholic impacts a competitor, competitor mechanics or an Official, the penalties for a competitor will be immediate disqualification. An official and competitors mechanics will immediately be taken out of service.
- 8.10.17. Any driver, representative or mechanic behaving abusively may be expelled from the meeting (a meeting may be one or more days and consist of more than one event/class).
Any incidents that are likely to bring the sport into disrepute can be subject for further action from the Executive Committee.

8.11. PROTESTS

- 8.11.1. Only drivers participating in the race may enter a protest.
- 8.11.2. At European Championships a protest can only be made through the Team Manager.
- 8.11.3. Protests may concern:
 - the Organisation (act against the rules);
 - Officials (act against the rules);

- Results (only when proof can be presented showing the result is wrong);
 - Other competitors (acting contrary to the rules to the disadvantage of the one entering the protest or the one the Team Manager is representing).
- 8.11.4. Only written protests, handed over to the Race Director within 20 minutes after the publication of results of the heat or occasion to which it concerns, will be considered.
- 8.11.5. 100 € or equivalent in the host countries currency has to be paid to the Race Director, on behalf of EFRA, who will only then accept the protest. The time of receipt of the protest must be recorded.
- 8.11.6. The protest must contain relevant information for the Race Director to be able to discuss the protest and decide.
- 8.11.7. The Race Director together with either the Referee(s), the Timekeeping Supervisor or the International Jury, will deal with the protest and decide. This decision is final.
- 8.11.8. The decision must be made within 30 minutes after the acceptance of the protest. Only for important reasons and when the International Jury has to meet, may the decision be delayed to 60 minutes max.
- 8.11.9. When a protest concerns semi- or finalist, either the decision must be taken 10 minutes before the start the latest, or the start must be delayed until 10 minutes after the decision.
- 8.11.10. After the final race, there will be a "protest period" of 20 minutes after the provisional results have been published in writing on the score-board. For this purpose, the publishing time of the provisional results must be noted down on the result-sheet.
During these 20 minutes, protests against the results may be presented to the Race Director who will then act according 8.11.7 and 8.11.8.
If no protests are presented within the 20 minutes "protest period", the provisional results become official and final and may be announced.
- 8.11.11. Appeals to EFRA against the decisions of the International Jury may only be made if submitted to the Race Director in writing with a further appeal fee of 500 € (or equivalent), payable to EFRA, before the end of the event.
Appeals are only allowed against decisions of rule interpretation or of decisions made by the international jury after protest and not the fact of rules (see rule 7.4.6).
In cases where the international jury has adjudicated in cases of protest the decision of the jury is maintained until the appeal is considered.
In cases where the international Jury has made an interpretation of the rules the decision is suspended pending consideration of the appeal.
Appeals against the decision of referees shall also be made in writing to EFRA (see rule 7.1.22) and will not alter or interfere with the race in progress and will not suspend any decision of the referees.
Appeals to EFRA must be considered at the next Executive committee meeting or before the next AGM and are always to be considered as final.
- 8.11.12. If protest is upheld, the protest-fee of 100 EUR must be remitted immediately. If protest is rejected money will be sent/given to EFRA. If the appeal of rule 8.11.11 is accepted money involved must be sent/given to EFRA, whose will act accordingly.
- 8.11.13. The Race Director may, without a protest being made, correct results which he may deem necessary, after consultation with his organising staff and referees.
- 8.11.14. Protests against the decisions of the Referee, concerning the racing, are not possible. The Referees decisions are indisputable (see 7.1.21 and 22).

- 8.11.15 The result/decision of a protest (including the evidence used to come to said conclusion) must be made formally to the protestor in writing as well as published on the event notice board for all to see.

8.12. LAP COUNTING PROCEDURE

- 8.12.1. At EFRA sanctioned events, the lap counting is to be done automatically by means of an automatic lap counting system and a transponder fitted inside the cars body shell.

All competitors must supply their own Personal Transponder and are responsible for ensuring that the organizer is advised of the unique number.

- 8.12.2. The fitting of the correct transponder inside the cars body shell, and ensuring it has adequate signal strength is the responsibility of the driver.
- 8.12.3. If a driver loses the transponder during the race, or if a transponder malfunctions after starting the race-clock, the lap counting supervisor must try to count the laps and time manually. If a competitor chooses to use a transponder which is not the same manufacture of the timing decoder being used, then the competitor must accept full responsibility for any laps or times that are not recorded. In such cases, the time-keeper is not required to perform a manual count or adjust times, but may do so at his/her discretion.
- 8.12.4. If a driver forgets to fit or activate the transponder during the race, the Race Director and the lapcounting supervisor will decide whether the laps are counted or not. There is no appeal against their decision.
- 8.12.5. Transponders must be moved to a better position in the car on the race-directors instruction, if lapcounting problems occur. Failure to comply may result in lost laps.
- 8.12.6. It is the responsibility of each competitor to ensure that no parts of his racing equipment generates any form of signal that in any way interferes with the automatic lap counting system. If it is proven, that interference is being caused, the Race Director must instruct the driver to modify the offending item and if this does not prove possible, the driver will be excluded from the racing.
- 8.12.7. The result of a heat, subfinal or final should consist of the number of laps and the time of the last finish line passing in minute, seconds and 100 of seconds.
- 8.12.8. The organiser of EFRA events must put a minimum of screens in the pit lane, boxes and visitors area in order for everyone to be able to follow the races on site.
- 8.12.9. The organiser of EFRA events must be able to produce and display on line live results from lap counting for everyone to be able to follow the races on line.
- 8.13 PRIZES AND PRIZE CEREMONY**
- 8.13.1. Immediately after the finish of the race and before the drivers leave the drivers rostrum, the unofficial winner must be declared for the public and a symbolic first place award is presented. This award must be returned to the organisers immediately after the unofficial ceremony.
- 8.13.2. Immediately after the official result is published, the prize-ceremony must be held.
- 8.13.3. Winners are not entitled to claim prizes by right.
- 8.13.4. Prizes must be announced in the race-program. The actual prizes must correspond with the prizes as announced. They must be of a reasonable value according to the standard of the race.
- 8.13.5. Cash prizes or any other means of payment (paper tickets or coins of an obvious exchangeable value) are strictly forbidden.
- 8.13.6. Gifts not exceeding the price of a one-eight scale car kit may be given.
- 8.13.7. EFRA will award the first three drivers of each official European Championship

with a golden (first), silver(second) and bronze (third) medal.

8.13.8 The best driver under 17 years will also receive an EFRA award. Competition age for Junior drivers will be determined by their age on the 1st January of the year of the event.

8.13.9 The best female driver will also receive an EFRA award.

8.14 EVENTS ORGANISED BY ASSOCIATED MEMBERS

8.14.1 Events organised by associated members under endorsement of EFRA may not be subject to prize money or to starting premiums.

8.14.2 Applications for such events should be sent to both the President and the Secretary of EFRA at least 6 months before the start of the event

8.14.3 Such events may not have the title nor be referred to as Grand-prix, European or National Championships.

8.14.4 At least one official EFRA representative must be present. EFRA does not pay any expenses and all costs are to be supported by the organising associate member. This EFRA representative will be integrated in the officials listing and have the right to be present at all meetings and have access to all parts of the premises as an observer and auditor.

8.14.5 The relationship between the associated member and EFRA shall be that of independent identities for all purposes, and in no event shall persons employed by either party be held or construed to be representatives of the other.

8.14.6 Racing formats and classes may be different from those described in the EFRA handbook The parts of the EFRA rules that will be applied should be clearly stated as well as the deviations on technical rulings. However the parts in the EFRA handbook referring to Legal liability, safety, security, conveniences, frequencies and drugs can under no circumstances be waived as being part of the rules fully in force.

8.14.7 The organizer accepts full responsibility for all necessary authorizations and to comply with local laws and regulations. The Associate organiser at its sole cost and expense shall procure and maintain during the term of this event with insurers of recognised responsibility for all insurances needed policies with adequate coverings.

8.14.8 Whenever prizes in merchandise are given they must be spread over at least 15 participants and have to be comparatively within reasonable proportion to each other

8.14.9 The Associated member will defend, indemnify and hold EFRA harmless from and against any and all liabilities, damages, losses, claims, fines, penalties, assessments, demands, actions, suits and judgments, including all fees, costs and expenses incidental thereto, that may be charged to, asserted against or incurred by EFRA by reason of any loss, damage or injury of any kind or nature whatsoever in any manner or to any extent resulting from or arising out of the articles or services covered by the endorsed event except to the extent resulting solely and directly from EFRA's gross negligence or wilful misconduct.

8.14.10 EFRA Registered drivers are allowed to participate at events organised by EFRA Associated Members, but their EFRA International Registration may be withdrawn if they participate at International events not recognised by EFRA.

Note: The valid EFRA Section Chairman is the only person that has the right to determine events not recognised. His decision is final and cannot be protested.

8.15. MARSHALLING

Positions for marshals must be spread equally around the track and may not obstruct the vision of the drivers.

The positions must be numbered. When a position is located at a dangerous

part of the track (i.e. the straight or a fast corner), this position must be equipped with protection for the Marshal (a wall, tyres, a gate etc.).

The marshal's position must be furnished with gloves and/or other protection and a safety jacket which is compulsory to wear. For IC events, it is mandatory (safety reasons) that the marshal position is also equipped with a plastic or wood baton as an aid to kill a running engine.

- 8.15.1 Only drivers taking part in the competition may and must marshal the heat following their own, (subject to 8.15.4). The first heat will be marshalled by the drivers of the last heat.

Other than running marshals, all other marshals must remain at their posts until replaced. No other persons, except officials are allowed on the track while the race is in progress.

- 8.15.2 Failure to Marshal:

1. Qualifying by Fastest Time system: Failure to marshal during Qualifying or provide a competent substitute agreed with the Race Director, will result in the loss of the driver's best Qualifying time. Applied when all Qualifying has been completed.

2. Qualifying by Round by Round system: Failure to marshal during Qualifying will result in a driver being demoted in the Final Qualifying Classification by a 'fixed' number of places. This will be applied when all Qualifying Rounds have been completed and direct to the Overall Qualifying Classification before designating any; Finals, Sub-Finals, Super-Pole races etc.

The number of places demoted will be equivalent to dropping one Final or Sub-Final and retaining the same grid position number in the demoted Final. Therefore drivers within the number of places demoted will move one place higher in the adjusted Qualification Classification. The number of places demoted will vary for different Sections or Classes.

eg. Straight Finals with no 'bump-up' (most Electric Classes) – A grid 2 demoted to B grid 2.

Single side Finals with 'bump-up' – A grid 2 demoted to B grid 2.

Xmas Finals (A & B tiers) with 'bump-up'

With some drivers direct to Main Final – Main grid 2 demoted to B Semi grid 2.

With no drivers direct to Main Final – B Semi grid 2 demoted to B Quarter grid 2.

This could be applied more than once to any driver that repeatedly fails to marshal during Qualifying.

(Note: See also App. 2 Rule 2.4, extra detail for 1/8 Off-Road).

3. Finals: If competitors are required to marshal Finals, then failure to marshal in a Final will result in being placed last in the appropriate Final. Failure to marshal is clarified as: not being at the correct marshalling point 30 seconds prior to the start of a controlled practice, qualifying heat or final.

A substitute marshal is only allowed if the driver is physically disabled

- Notification of the substitute must be made to the Race Director prior to the start of the race which the driver is racing in.
- If a substitute is being used for the whole event, notification must be made prior to the beginning of the first Time Practice Round.
- The driver who is substituted must stay at the Race Director's disposal in a designated area (not in the pit) up to the end of each race where he is substituted.

Failure to comply with these provisions will result in the same losses as if

a driver does not comply with his marshalling duty. Designated marshals who repeatedly fail to marshal will be excluded from further participation at the event on the basis of Unsporting Behaviour and their Federation will be informed to take corrective action.

- 8.15.3 The organisation of drivers marshalling for the final will be the responsibility of the organiser. The main system for such will be the following one: For finals, large teams provide the most marshals, maximum 2, smaller teams 1 and very small teams none (but may volunteer to help). Marshals will be allocated designated points. Team Managers to ensure that these points are covered at all times by drivers. Only drivers taking part in the competition may and must marshal finals unless a substitute is allowed by the Race director due to physical disability. Alternative secondary systems like: Each driver taking part in a final must provide a marshal for his car number position or Drivers not bumping-up to the next sub final will marshal the positions of their car number in the immediate next sub final (descent from rostrum and go to marshal), or the driver marshal the precedent final on his side of the Christmas tree with the non-filled spots to be covered by the club can be used following a decision made by the Race Director together with the referees and the Section Chairman if present.
- 8.15.4 The organiser must provide a marshal for any unfilled position i.e. previous heat had less drivers or marshals missing.
- 8.15.5 It is the Team Manager's responsibility to ensure that drivers marshal finals. Country allocations will be decided pro-rata. Team Managers who do not fulfil their duties regarding the organisation of marshals will be reported to their Federation with the intention that they are not nominated at future events.
- 8.15.6 For large scale racing Marshals are not allowed. Mechanics will act as Marshals out from the pit lane. This rule cannot overrule national insurance regulations.
- 8.15.7 All marshals must wear safe and sensible footwear that will not become detached when performing marshalling duties. (Sandals are not acceptable).

9. STARTING PROCEDURES

- 9.1. Purpose of the EFRA qualifying system is to create more equal chances for the drivers.
 - 9.1.1 The Race Director will appoint a suitably qualified person(s) to perform the duties required by Race Control in respect of all procedures required for the operation of the timing software and a Start Official to be responsible for the start and finishing procedures of all cars in Qualifying and Finals.
 - 9.2. Starting procedure for qualifying It can be either:
 - a. Staggered Start: All cars are released one by one by the starter at an interval of approx. 1 second (track lay-out depending). Missing the starting procedure means that the car has to start his race from the pits or the starting line after the last car has started from the designated starting area.
 - b. Flying Start: Cars will be driven at the track from the moment the track is declared "Open" for practice or warm-up, there will be no call for starting procedure. The Start Official will give a 2 minutes warning to the start, this will be announced through the sound system, you will also get the time "1 minute to the start", "30 seconds to the start" and "10 seconds to the start". An audible signal and the mention "clock is running" will indicate that the heat has started. During this procedure timing cant be adjusted.
- Common conditions: Each car will have its own timing. The total time will be the one designed in each class appendix.

- 9.3. Staggered Start: Timing/counting starts for each car separately the first time that car passes the start-line. For any cars not starting when directed, the latest that their individual clocks will be started is when:- Either:
- a) Any of the cars complete a full lap. Or:
 - b) Maximum one (1) minute after the designated first car was called to start.

The actual starting position has to be a few meters before the start-line.

Flying Start: Timing/counting starts for each car separately the first time that car passes the start-line or as maximum as when a 150% of a standard lap-time for the track has passed since the clock is running.

- 9.4. The position of the lap-timing antenna (loop) within the track at EC events must have the approval of the EFRA Section Chairman (or the EFRA appointed deputy).

10. RULING

10.1 PRECEDENCE

- 10.1.1 As long as appendix rules concerning specifications and race procedure do not clash with EFRA's spirit regarding fair racing they take precedence over the general rule governing the same item.
